Forum for Innovation, Talent and Education in Aerospace

DOSSIER SPONSORSHIPS AND EXHIBITION

29 - 31 October 2024

Madrid, Spain

ORGANIZED BY: 

virtual educa

Ellas VUELAN ALTO
The Innovation, Talent and Aerospace Education Forum is organized by 'Virtual Educa' and 'Ellas Vuelan Alto', two globally impactful organizations, offers a valuable opportunity for relevant collaboration in the aerospace and educational innovation fields, especially in the development of female talent.

Promoting STEM vocations in girls is essential since they will be the future of a society where women are called to be the new leaders in the aerospace sector, which is projected to be one of the most employable sectors in 2030.

Likewise, the international final of the second edition of the Mars Challenge will be held, a “high-flying” initiative whose purpose is to inspire new generations to think beyond our planet to contribute to its improvement.

The Forum promises to be a showcase of innovation and talent by bringing together the industry with leaders, visionaries, academics, educators and young creatives in the fields of aerospace and educational innovation.
Tracks

At the Forum for Innovation, Talent, and Education in Aerospace, we have organized a series of thematic tracks that will immerse you in the most exciting and cutting-edge aspects of aerospace innovation and education. Each track offers a unique and enriching experience, designed to satisfy your interests and challenge your perspectives.

1. **WOMEN, SPACE AND SCIENCE**
   - **Topics**
     1. Challenges for women in aerospace science
     2. Implementation of educational policies and strategies that promote gender equality in aerospace STEM, from education to the global level
     3. Strategies that encourage women's passion and interest in aerospace sciences from an early age
     4. Mentoring and support networks that promote the professional and academic careers of women in aerospace science, helping them overcome challenges and achieve their professional goals
     5. Challenges in the aerospace age: conquering horizons and designing new professions
   - **Keywords**: women, space, science, technology, equality, challenges.

2. **AEROINNOVATION**
   - **Topics**
     1. TalentSpace: talent as the engine of innovation
     2. SkillSet: development of aerospace skills for the future
     3. Entrepreneurship and Startups in the new aerospace economy
     4. The importance of leadership: preparing the leaders of the future
     5. New training programs for new professional approaches
   - **Keywords**: innovation, talent, entrepreneurship, leadership and aerospace skills.

3. **NEW FRONTIERS**

4. **AEROEDUTEC**

---

**WOMEN, SPACE AND SCIENCE**

*Taking off towards equality and passion for science.*

In this thematic block, we explore human curiosity, fostering a passion for scientific knowledge, embarking on a journey toward understanding the fundamental role of science in our modern society. It calls upon us to value scientific vocations, to strive for equal opportunities, to address the challenges that we as human beings face in this, the space age, and to empower women to claim their place among the stars.

---

**AEROINNOVATION**

*Forging the future through innovation and talent*

Pioneering area dedicated to the convergence of entrepreneurship in the aerospace industry, showcasing talent and skill development. It provides a dynamic space for startups to present bold ideas in the new aerospace economy, celebrating the diverse spectrum of professionals driving these innovations, and allowing participants to network with aerospace industry leaders.
NEW FRONTIERS
Exploring the new frontiers of knowledge

New Frontiers invites pioneers to dive into the technological revolution that is transforming our present, highlighting the forefront of AI and robotics, with the latest in machine learning and advances in aerospace mobility, as well as drone technology, fostering discussions on innovation, ethics, and the future of intelligent machines.

Key terms: AI, drones, robotics, cutting-edge technologies, mobility, sustainability.

Topics
1. Preparing for the future: AI and Robotics
2. AI regulation as an opportunity to overcome challenges and ensure ethical use.
3. Sustainability: the great challenge of not compromising the future
4. Technological advances and challenges with drones: creating professionals
5. Advanced air mobility: exploring new futures

AEROEDUTEC
Shaping the future where Education takes off beyond the Classroom.

AeroEducTec sits at the intersection of education and aerospace technology, redefining how knowledge is imparted and absorbed. It fuses the excitement of space with STEM education, offering experiences that transcend traditional learning environments through innovative teaching methods and preparing educators and students to explore the universe while fostering a passion for lifelong learning in the sciences.

Key terms: aerospace training, STEM, learning environments and ecosystems.

Topics
1. Learning from aerospace models: the astronaut within us
2. Taking off with educational technologies: highly efficient ecosystems
3. STEM: Methodologies that promote scientific thinking
4. Interdisciplinary collaboration in solving scientific challenges and research
5. The knowledge route: learning environments beyond the classroom
Awards

SheRockets Awards
Celebrating the talent and dedication of women in the fields of STEM and the aerospace industry. These awards recognize the exceptional leadership, innovation, and impact that women are making in these sectors, inspiring future generations to achieve new milestones in space exploration and the development of advanced technologies for the aerospace and terrestrial industries.

Application price: 150 EUR

AeroStartUp Vanguard Award
Acknowledging the boldness and foresight of startups that are transforming the connection between space and Earth. This award honors the most creative startup that is pioneering new horizons in the aerospace industry, developing solutions that propel the exploration and utilization of space for the advancement of humanity.

Application price: 150 EUR

FITEA Awards
It rewards innovative solutions, research, and projects that use aerospace technology to address terrestrial challenges. These awards highlight the collaboration between the aerospace industry and other disciplines to promote sustainability, conservation, and the improvement of our planet through advanced technology.

Application price: 150 EUR
Expected impact

- 1,500 In-person attendees
- 20,000 Virtual attendees
- 20 Countries
- 25 Government agencies and international multilateral organizations
- 100+ Speakers

Awards
Public of interest

**Education and Formation**
- Managers
  - Rectors
  - Academic vice-rectors
  - Deans
  - Presidents
  - University-Company Directors
  - Administrators
  - Directors of educational centers
  - Pedagogical directors
  - ICT Directors
  - Innovation Directors
  - Academic coordinators
  - University Network Managers
- Teachers and students
  - Teachers
  - Educators
  - Trainers
  - Academics
  - Researchers
  - Academic advisors
  - Undergraduate, postgraduate and doctoral students
  - Vocational Training Students
  - ESO-High school students

**Governments and agencies**
- Departments of Education, Innovation, and Science
- Government agency heads: INTEF, CSIC, CNIE, ANECA
- General instructions
- Inspectors/Supervisors
- Representatives from international multilateral organizations

**Companies**
- Educational technology companies
- Educational innovation clusters
- Editorials
- Startups
- EdTech Platforms

**Civil society**
- Science popularizers
- Learning platforms
- Nonprofit Organizations
- Content creators
- Foundations

**Aerospace industry**
- CEOs
- Founders
- VP Managers
- Directors and C-Levels of Technology, Marketing, Finance, Admissions
- Heads of European and LATAM space agencies
- Aeronautical clusters
- Aerospace industry companies
- Aerospace technology
- Mobility: drones and unmanned vehicles
- Commercial aviation
- Entrepreneurs and startups
Why sponsor?

**Academic participation**

- Access to cutting-edge knowledge and the latest research in your field of interest.
- Opportunity to contribute to the advancement of knowledge and support academic development.
- Interaction with experts and distinguished academic leaders.

**Branding**

- Increased brand visibility, products, or services to a relevant and focused audience.
- Opportunities for additional promotion and exposure.
- Potential to generate leads and business opportunities through interaction with event participants.

**Networking**

- Networking with professionals, experts, and leaders in the industry.
- Potential to establish strategic collaborations and business alliances.
- Exchange of ideas, experiences, and best practices with other distinguished professionals.
What is in it for your company?

**Visibility and exposure**
Participating in a renowned aerospace fair offers emerging companies exposure to a global audience, potential investors, and industry leaders.

**Opportunities for Networking**
Interaction with industry professionals leads to valuable partnerships, collaborations, and mentorship opportunities.

**Investor involvement**
Providing a space to showcase innovative ideas and prototypes, attracting investors seeking promising companies in the aerospace and EdTech sector.

**Validation of the market**
Direct interaction with the market helps new businesses and startups refine their offerings and understand customer needs.

**Partnerships with reputable companies**
Established companies benefit from the innovative ideas of emerging businesses, leading to potential partnerships, acquisitions, or technology transfers.

Industry media partner

Flynews

Aeronautical information magazine covering all aspects of the strategic sector.

In addition to details about airlines, the national and international aeronautical industry, and human interest reports, Flynews features the most representative figures of aeronautical activity in all its aspects.

General media partnership

By participating as a Media Partner, you will have the opportunity to:

- Increase your outreach and exposure to an international audience keen on aerospace, education, and innovation.
- Gain access to exclusive content and interviews featuring industry experts.
- Participate in an event that advocates for gender equality and the advancement of female talent in STEM fields.
- Cover the thrilling international final of the second edition of “Reto Marte”, inspiring new generations to explore beyond our planet.

For further details on becoming a Media Partner, please contact us at sponsors@fitea.org.
Seize the chance to sponsor FITEA. Reach out to our team, and we will tailor a package to suit your needs.
